RIDING MOWERS

Pioneers - Specialists in Riding Mowers

PATHFINDER. The workhorse of the Root line. Designed for heavy duty operations on brush, weeds and large lawn areas. Self-propelled model cuts 22,000 sq. ft. per hour at normal walking speed. Available in 20" and 24" sizes with dependable 3 H. P., 4-cycle engine.

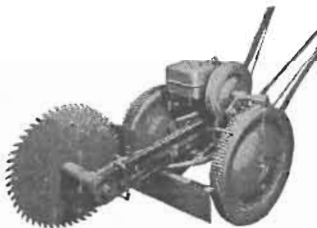

T-24' GARDEN TILLER. Here's an all purpose model powered by 3 H. P., 4-cycle engine. Tines adjustable to 14", 20", and 24" cultivating path. Features short turning radius. Easy, effortless handling.

26-VR RIDER. The star of the Root line of 5 popular riding models. Features 4-speed transmission, push button or recoil starting, combined engine controls, side trimmer, floating safety skirts, brake pedal control. Cuts big 26" swath in solid comfort.

20" SELF-PROPELLED SAW. Root offers three models, 18", 20" and 26" with 1.75 H.P. to 5.75 H.P., 4-cycle engines. All built for heavy duty, troublefree service. Feature variable blade cutting position and a wide range of attachments for mowing, cordwood cutting, and post hole digging. Versatile, yet easy to handle.

NEW

SAFETY SHAVE LAWN KNIFE. An exclusive feature of Root Mowers, this knife shaves grass — doesn't hack it. Has three times the cutting surface on working end of blade. Curved tip tends to self-sharpen, softens impact force on engine, reduces hazard of throwing objects. Available in kits to fit most all mowers. Stock up now!
