WHIZ BASIC UNIT

18", 20" and 26"

The newly designed Whiz Self-Propelled Saw unit is an easy, safe, one-man operational unit with all controls located on the handle bars. It is powered by a heavy-duty, easy starting 4 cycle gasoline engine. With the seven heavy duty low cost attachments available it will do the average sawing, clearing, mowing, sharpening and cultivating jobs. This unit comes in three sizes: 18", 20" and 26".

ROOT 24" TILLER

The Root 24" Tiller is an all purpose Garden Cultivator. Features a powerful 4 cycle gasoline engine. 24" cultivating path, heat treated general purpose adjustable knives, detachable handle. For the average garden plot or small nursery, the Root Tiller makes gardening a pleasure.

26-VRD

26" Four-wheel Riding Mower

The 26-VRD is the ultimate in riding mowers. It features "push button" starting, variable speed transmission drive with four speeds forward and one speed reverse. This hercules is powered with a 5½ HP 4 cycle engine. Also featured is a blade disengaging clutch, four wheel ride, special floating skirts with lawn roller, spreader and seeder and leaf mulching attachments available.

24-VRD

24" Four Wheel Riding Mower

You ride in foam rubber cushioned comfort while this big FLYING-R reduces the size of your uncut lawn by two foot swaths. This mower has all the **extras** for **extra big yards** . . . variable speed transmission, blade disengaging clutch, reverse gear, four wheel ride, and special floating skirts. Lawn roller, spreader and seeder, and leaf mulching attachments are available.

24-VR-3D

24" Tri-wheel Riding Mower

The streamlined design and the streamlined performance of this spectacular riding mower makes it the hit of every modern home with a big lawn. It features **variable speed transmission drive** with four forward speeds to six miles an hour and reverse to three miles an hour. Cuts a 24" swath. **Floating skirts** provide protection for rider and others nearby. Attachments to increase this mower's versatility include lawn roller, spreader and seeder, and leaf mulcher.

21-VRD

21" Tri-wheel Riding Mower

New car riding luxury on a power mower that features **variable speed transmission drive** with four forward speeds to six miles an hour and reverse to three miles an hour. **Floating skirts** provide protection for rider and others nearby. Attachments to increase this mower's versatility include lawn roller, spreader and seeder, and leaf mulcher.

RE-21-SP

21" Self propelled

Variable speed transmission drive lets you select the **proper speed** for light and heavy grass, even tough weeds. Propels forward one to five miles an hour. A two and a half horse power engine provides plenty of drive. All controls are safe, convenient, and simple to operate including throttle adjustment, easy recoil starting and quick change cutting height.

RD-20-SPR

Heavy-duty 20" self-propelled. Side discharge. Adjustable cutting heights. Lift-type chrome alloy blade. Mulch-screen. Alloy aluminum frame. Heavy-duty axles which extend through entire frame. Propelling clutch. 2½ HP, 4-cycle engine, recoil starter and handle throttle.

RD-21-R

21" 4-cycle Manually propelled
Sturdy aluminum cast frame and heavy duty ball bearing wheels make mowing easier. This big mower features recoil starting, remote control throttle and **quick change** cutting height.

RD-24-R

Big Values at a low price. This model has Front discharge. Staggered wheels. Steel frame. Lift-type chrome alloy blade. Handle throttle control. Adjustable handle. 24" cut.

RE 18

2 Cycle - 4 Cycle Manually propelled

This rugged mower **rolls easily** on nylon bearing equipped wheels. Its special "perfect circle" cutting chamber and spring steel blade do a smooth job without leaving unsightly bunches of grass behind. RE-18 4 cycle features powerful Briggs Stratton engine with recoil starting and leaf mulching screen.

20SP 24SP

24" SP Pathfinder has a $2\frac{3}{4}$ HP Horizontal Shaft 4 cycle engine. 20" SP Pathfinder has a $2\frac{1}{4}$ HP Horizontal Shaft 4 cycle engine. Both models come with rotar type blade with replaceable cutters. Alloy aluminum frame. Heavy-duty wheels with ball bearings. Adjustable cutting heights. Clutch and throttle controls conveniently placed on handle. Designed for parks, schools and cemeteries.

PATHFINDER

20HB 24HB

For industrial mowing. Rotor blade with replaceable cutters. Alloy aluminum frame. Forged steel spindle rotating on precision-ground ball bearings. Adjustable cutting height. Front wheels 8x1.75, heavy-duty. Rear wheels large 14". All 4 wheels mounted on ball bearings.

WHIZ 20

The rental-type mower designed for rough treatment. Belt driven. Forged steel spindle, rotating on precision-ground ball bearings. Chrome alloy blade. Reversible type. Adjustable front guard. Ball bearing steel wheels. 4-cycle engine. Adjustable handle height.
